

# Workcloud Communication PTT Express

Workcloud Communication PTT Express provides your workers with simple push-to-talk voice communication features, working with your existing wireless network to connect all employees within the four walls of your business.

## Simplify Workflows with Real-Time Communication

With PTT Express, give your workers the power to communicate in real time and transform how they collaborate.

With group broadcast and 1:1 private response, employees can work together at the push of a button

React to any urgent situation by immediately sending a group broadcast to the relevant employees

## Foster Better Collaboration Across Your Workforce

Connect your workers with real-time communication, improve employee engagement and productivity, and create a powerful customer experience.

Doesn't require server or PBX integration, and works seamlessly with your existing wireless network

**Easy Implementation**

**Intuitive UI**

With a simple, configurable, and easy-to-use application, save crucial time on training and onboarding processes
